Guide:

Bed Type (For Shelter Only): Bed Type describes the type of beds offered by emergency shelter projects according to the following:
Facility-based: Beds (including cots or mats) located in a residential homeless assistance facility dedicated for use by persons who are homeless.
Voucher: Beds located in a hotel/motel and made available by the homeless assistance project through vouchers or other forms of payment.
Other: Beds located in a church or other facility not dedicated for use by persons who are homeless.
Bed and Unit Availability: Whether the beds and units are available on a planned basis year-round, or seasonally (during a defined period of high demand), or on a temporary basis as demand indicates.
Year-Round Beds/Units: Year-round beds and units are available on a year-round basis.
Seasonal Beds (Emergency Shelter Only): Seasonal beds are not available year-round, but are available on a planned basis, with set start and end dates, during an anticipated period of higher demand. For the HIC, identify only the total number of seasonal beds available for occupancy on the night of the inventory count.
Overflow Beds (Emergency Shelter Only): Overflow beds are available on an ad hoc or temporary basis during the year in response to demand that exceeds planned (year-round or seasonal) bed capacity. For the HIC, identify only the total number of overflow beds that were occupied on the night of the inventory count.

Inventory Type: *Current: all inventory that is operational on the night of the count or Under Development: all inventory that is projected but not in operational on the night of the count.*

Current Inventory Under Development, is project expected to begin operation within the next 12 months? Yes No
